

## 16º CONGRESSO EUROPEU DE OBESIDADE (ECO, GENÉVA, 2008) - TRABALHOS CIENTÍFICOS DE INVESTIGADORES RESIDENTES EM PORTUGAL

Sessão (dia e hora)	Formato	Título	Nome	Apelido	Número	Área
T4:OS1 - Thurs May 15th: 09.45-11.00	Oral Presentation	Physical activity is associated with decreased eating disinhibition in a weight management program for overweight and obese women	Pedro	Teixeira	T4:OS1.4	Track4: Behavioural change and patient education
T1:PS - Thurs May 15th 15.45-17.15	Poster Presentation	Leptin, insulin resistance and body composition in men	Isabel	Mascarenhas	T1:PS.131	Track 1: Cells to whole body physiology
T1:PS - Thurs May 15th 15.45-17.15	Poster Presentation	Insulin resistance and body composition in pre and post-menopause women with or without overweight	Isabel	Mascarenhas	T1:PS.80	Track 1: Cells to whole body physiology
T1:PS - Thurs May 15th 15.45-17.15	Poster Presentation	Insulin resistance, beta-cell function and glycemc status in overweight/obese patients	José	Silva-Nunes	T1:PS.66	Track 1: Cells to whole body physiology
T2:PS - Thurs May 15th 15.45-17.15	Poster Presentation	Obesity and actual functioning: the role of adverse childhood experiences	Susana Sofia	Silva	T2:PS.114	Track 2: Clinical Management
T2:PS - Thurs May 15th 15.45-17.15	Poster Presentation	Body composition and body image perception in Portuguese and Spanish college students. Comparative study between overweight /obese and normal weight women	Elsa	Pereira	T2:PS.186	Track 2: Clinical Management
T2:PS - Thurs May 15th 15.45-17.15	Selected Abstract Posters	Training type, resting metabolic rate, and fat-free mass in overweight and obese women	Elvis	Carnero	T2:PS.17	Track5: Prevention And Public Health
T3:PS - Friday May 16th 15.45-17.15	Poster Presentation	Differences in cardiovascular risk between overweight and obese adolescents	Patrícia	Costa Reis	T3:PS.89	Track3: Metabolic Syndrome
T3:PS - Friday May 16th 15.45-17.15	Selected Abstract Posters	Reduction of the cut-off of waist circumference does not seem to modify the prevalence of metabolic syndrome in a population with morbid obesity	Selma	Souto	T3:PS.27	Track3: Metabolic Syndrome
T3:PS - Friday May 16th 15.45-17.15	Selected Abstract Posters	Serum levels of aminotransferases and fx-GT in obese patients	Joana	Mesquita	T3:PS.33	Track3: Metabolic Syndrome
T4:PS - Friday May 16th 15.45-17.15	Poster Presentation	Physical activity and exercise history: associations with success in a weight management program for overweight and obese women	Eliana	Carraça	T4:PS.17	Track4: Behavioural change and patient education
T4:PS - Friday May 16th 15.45-17.15	Selected Abstract Posters	Analysis of mediation and reciprocal effects of changes in weight, self-esteem, and exercise in a behavioral weight loss treatment	António	Palmeira	T4:PS.15	Track4: Behavioural change and patient education
T4:PS - Friday May 16th 15.45-17.15	Poster Presentation	Testing a new self-report instrument for measuring lifestyle physical activity in obese women	Margarida	Castro	T4:PS.34	Track4: Behavioural change and patient education
T4:PS - Friday May 16th 15.45-17.15	Poster Presentation	Are Self-Determination Theory and Motivational Interviewing useful for weight management? Results from a randomized controlled trial in women	Pedro	Teixeira	T4:PS.22	Track4: Behavioural change and patient education
T5:PS - Friday May 16th 15.45-17.15	Poster Presentation	School food vending machines and cardiovascular risk factors in 13-years-old Portuguese adolescents	Elisabete	Ramos	T5:PS.193	Track5: Prevention And Public Health
T5:PS - Friday May 16th 15.45-17.15	Poster Presentation	MC4R mutations in a sample of morbid obese Portuguese patients	Davide	Carvalho	T5:PS.76	Track5: Prevention And Public Health
T5:PS - Friday May 16th 15.45-17.15	Poster Presentation	Protein intake and obesity in schoolchildren	Pedro	Moreira	T5:PS.137	Track5: Prevention And Public Health
T5:PS - Friday May 16th 15.45-17.15	Poster Presentation	Obesity and asthma in schoolchildren	Patrícia	Padrão	T5:PS.157	Track5: Prevention And Public Health
T5:PS - Friday May 16th 15.45-17.15	Poster Presentation	Maternal overweight and obesity versus breastfeeding success	Cláudia	Lucas	T5:PS.151	Track5: Prevention And Public Health
T5:PS - Friday May 16th 15.45-17.15	Poster Presentation	Sugar sweetened beverages and overweight in a sample of schoolchildren	Hugo	Valente	T5:PS.72	Track5: Prevention And Public Health
T5:PS - Friday May 16th 15.45-17.15	Poster Presentation	Co-morbidities in rheumatic patients	Verónica	Lopes	T5:PS.165	Track5: Prevention And Public Health
T5:PS - Friday May 16th 15.45-17.15	Poster Presentation	Normal weight obesity syndrome: higher prevalence in rheumatic patients than working population	Alexandra	Cardoso	T5:PS.107	Track5: Prevention And Public Health
T5:PS - Friday May 16th 15.45-17.15	Poster Presentation	Nutritional evaluation and quality of life in rheumatic patients	Alexandra	Cardoso	T5:PS.126	Track5: Prevention And Public Health
T5:PS - Friday May 16th 15.45-17.15	Poster Presentation	Should overweight and obesity criteria be modified in Rheumatoid Arthritis?	Luz	Coelho	T5:PS.127	Track5: Prevention And Public Health
T5:PS - Friday May 16th 15.45-17.15	Poster Presentation	Parental gender differences in the estimation of their offspring's dietary intake	Tânia	Cordeiro	T5:PS.178	Track5: Prevention And Public Health
T3:OS2 - Friday May 16th: 17.15-18.45	Oral Presentation	Is Metabolic Syndrome in non-obese population clinically relevant?	Nuno	Cortez-Dias	T3:OS2.1	Track3: Metabolic Syndrome
T4:OS2 - Sat May 17th: 09.45-11.00	Oral Presentation	Autonomy, self-regulation, and intrinsic motivation predict success in a behavioral obesity treatment program for women	Marlene	Silva	T4:OS2.5	Track4: Behavioural change and patient education
